

**DEVONPORT, THE BIG BLOCKADE
1ST NOVEMBER, 2010.**

A Trident Ploughshares event.

Russia and America are cutting their nuclear weapons by a third.

While we propose to build new ones – **sheer madness.**

There is no need for the government to consider “painful cuts” to public services, when there is **£76 BILLION** worth of completely painless cuts just waiting to be made. It’s not exactly rocket science.

We must stop the ongoing refit of Trident nuclear submarines

at Devonport, and rid our nation of it’s addiction to these shameful weapons.

Trident is illegal, immoral, unhealthy and counter-productive, not to mention obscenely expensive. Britain can, and should be a leader in nuclear disarmament and the creation of green jobs. Using our skills for peace, not potential Armageddon.

Please come and join the blockade, on the 1st of November 2010 from 6 am. You can sit, lie down, lock-on or just provide moral support for the blockaders. Bring banners, bring flags, bring music, bring hope. ...And bring your friends.
